WHITE COUNTY HIGH SCHOOL

Mission Beliefs and Vision of White County High School

Mission :

Our mission at WCHS is to create and maintain a secure and safe environment for student learning in all academic and career technical areas, which will assist students to meet all federal, state, and local standards as well as lead to fulfilling adult lives in a progressive and sophisticated world.

Beliefs :

In order to achieve our mission to students at WCHS, administrators, teachers, staff, and parents believe:

1. Each student is a valued individual with unique physical, social, emotional, and intellectual needs.
2. A safe and physically comfortable environment fosters student learning and instruction.
3. Stakeholders, administrators, teachers, parents, students, and the community share the responsibility for advancing the school's mission.
4. Students learn best when they are actively involved in the learning process and apply their learning in meaningful assessment and decision-making processes.

5. Students' educational needs should be the primary focus of all decisions and policies impacting the function of the school.
6. A commitment to continuous improvement is essential if our school is going to enable students to become responsible, self-directed, lifelong learners.
7. Students learn in different ways and, therefore should be instructed and assessed in a variety of methods to support their learning.
8. All students can learn. Exceptional students may require special services and resources.
9. A commitment by administrators, teachers, and staff to support and instruct all state curriculum standards and mastery skills is vital for maximum student learning, assessment, and achievement.
2. A place of learning where all students will read at or above high school level.
3. A place of accomplishment where the graduation rate is at or above the state and national average.
4. A place for academic grounding where incoming 9th graders are enrolled into a Freshman Academy and prepared for a successful high school career.
5. A place of excellence where student assessments such as the ACT, Writing, and End-of-Course exams. NAEP, and AP exams produces scores at or above the state and national average.
6. A place of educational integration between career technical and academic content courses.
7. A place where students prepare to meet the challenges they will face in their future careers and lives.

Vision :

Our vision is to make WCHS a combination of the following:

1. A place that is a safe and secure environment that reinforces the importance of skills required for life-long learning.

*Congratulations to the following WCHS students for placing in the Reba Bacon Memorial High School Art Competition. This is a very big honor due to the fact that all of the high schools in the Upper Cumberland area are competing in this Art Competition. WCHS had 29 entries and 12 winners! In addition, we took 1st place in 6 out of 9 categories! Way to go WCHS Art students!
